

DAVID GRAYS
RTU ANTEX® Outdoor Pest Control

This product is specifically formulated for **outdoor use**. This product kills pests on direct spray and has a residual effect on sprayed surfaces to stop pests entering the home through cracks, windows and doors. 2 L of ANTEX® covers approximately 40 m² (adequate for an average home).

HOW TO USE:

Shake well before using.

The product is ready to use. No dilution or mixing is required. For complete home protection, perimeter treatment is advised. Apply to a band of soil or vegetation 2-3 metres wide around and adjacent to the home. If the treated band is disturbed, a new application should be made to maintain the barrier. Also spray under eaves, around window frames, behind down pipes and guttering, around sheds and all other insect infested areas outside the home. Spray areas thoroughly holding the spray nozzle about 20-25 cm from the surface. Spray evenly and to near the point of run-off using around 1 L spray mixture per 20m². Residual control will be achieved on non-absorbent surfaces (timber, fibre cement, ceramic, aluminum). Residual control on absorbent surfaces (bricks and concrete) will be shorter.

FOR EXTERNAL USE ONLY - DO NOT USE INDOORS

Situation	Pest	How to apply
Around the perimeter of the home.	Spider	Spray directly onto the spiders or where webs are present. For longerlasting protection spray under floors, eaves, around windows, protected darkened areas and inside cracks and crevices. Repeat when spiders begin to reappear.
	Papernest Wasps	Spray nests directly and to the point of run-off. When all adults wasps have been knocked down remove the nests from the structure.
Under eaves, guttering and down pipes.	Ants	Apply to trails and nests, around garbage bins and points of entry. Repeat as necessary.
Around window frames.	Cockroaches	Spray all points of entry including air vents, window frames, cracks, crevices and door jams.
	Fleas	Spray outside surfaces of buildings and surroundings including but not limited to foundations, verandas, window frames, eaves, patios, garages, dog kennels, sand pits, turf, trunks of woody ornamentals or other areas where pests congregate or have been seen. for best results perimeter treatment is advised - apply as indicated above.
Under house and around foundations.	Flies Mosquitoes	Apply as a residual treatment to surfaces where insects rest or harbour such as window sills, door jams and fly screens. Reapply as necessary.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

CAUTION

DO NOT apply to food plants. DO NOT apply during windy conditions. DO NOT allow chemical containers or spray to get into drains, sewers, streams or ponds. DO NOT spray directly onto humans, pets, exposed food, food utensils or food preparation areas. DO NOT spray if bees are feeding on flowering plants. **Will KILL bees.** Cover or removed fish ponds, aquariums etc. before spraying. DO NOT apply within 2 metres of a fishpond or water containing fish or aquatic species.

PROTECTION OF PETS & LIVESTOCK: Before treatment remove animals and pets from the areas to be treated. Cover or remove any open food containers. Cover or remove fish ponds, aquariums etc. before spraying. DO NOT apply within 2 metres of fishpond or water containing fish or aquatic species.

STORAGE AND DISPOSAL

Keep out of the reach of children. Store in the closed, original container in a cool, dry place. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.

SAFETY DIRECTIONS

Will irritate the eyes. Avoid contact with eyes. Wash hands after use.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre on 13 11 26. If swallowed do NOT induce vomiting. Give a glass of water.
