SOL-U-MIN™ No. 1
Liquid Minerals Concentrate for Cattle and Sheep

20 litres NET

DISPOSAL

Empty contents fully into application equipment. Rinse container thoroughly with fresh water and pour diluted surplus into full stock water troughs or stock water additive dispensing unit. Do not contaminate rivers, streams or waterways. Dispose of clean empty containers by recycling or responsibly.

SAFETY DIRECTIONS

Poisonous if swallowed. Avoid contact with eyes and skin. When opening container and preparing concentrate, wear cotton overalls buttoned to the neck and wrist, a washable hat, elbow length PVC gloves, face shield, or goggles and chemical resistant footwear. If clothing becomes contaminated with product or wet with concentrate, remove clothing immediately. If concentrate on skin, immediately wash area with soap and water. If product in eyes, wash it out of eyes immediately with water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves and face shield or goggles with detergent and contaminated clothing.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone 13 11 26

Directions for Use: SOL-U-MIN No. 1 is a liquid minerals concentrate for Cattle and Sheep. Minerals may be deficient in the diet, but they are essential for maintenance and production. SOL-U-MIN No. 1 may be administered by oral drench or by addition by dilution into livestock drinking water. The preferred method of dilution is by a preset dosing system. Stock should not access alternative free waters.

Mix thoroughly before use by inverting container 5 or 6 times

By Oral Drench Undiluted:

Sheep: Live weight kg	15-19	20-25	26-30	31-40	41-50	51-70	70 +	Cattle: Live weight kg	50-100	100-150	150-200	200-250	250-300	300-350	350-400	400-450	450 +
