

Product Name: DAVID GRAYS MOSQUITO SHIELD READY TO SPRAY  
APVMA Approval No: 94248/141899

Label Name:	DAVID GRAYS MOSQUITO SHIELD READY TO SPRAY
Signal Headings:	READ SAFETY DIRECTIONS BEFORE OPENING OR USING
Constituent Statements:	0.5 g/L BIFENTHRIN
Statement of Claims:	Mosquito shield / barrier spray. Kills and controls mosquitoes before they enter your home.
Net Contents:	500 mL - 5 L
Restrains:	DO NOT apply to food plants. DO NOT apply during windy conditions. DO NOT allow chemical containers or spray to get into drains, sewers, streams or ponds. DO NOT spray directly onto humans, pets, exposed food, food utensils or food preparation areas. DO NOT spray if bees are feeding on flowering plants. DO NOT apply within 2 metres of fishpond or water containing fish or aquatic species.
How to Use:	This section contains file attachment.
Withholding Periods:	
How to Prepare:	This product is specifically formulated for outdoor use. This product kills pests on direct spray and has a residual effect on sprayed surfaces to stop pests entering the home through cracks, windows and doors. 500 mL of Mosquito Shield Ready to Spray covers approximately 10 m2.

	<p><b>HOW TO USE:</b> Shake well before using. The product is ready to use. No dilution or mixing is required. For complete home protection, perimeter treatment is advised. Apply to a band of soil or vegetation 2-3 metres wide around and adjacent to the home. If the treated band is disturbed, a new application should be made to maintain the barrier. Also spray under eaves, around window frames, behind down pipes and guttering, around sheds and all other insect infested areas outside the home. Spray areas thoroughly holding the spray nozzle about 20-25 cm from the surface. Spray evenly and to near the point of run-off using around 500 mL spray mixture per 10m<sup>2</sup>. Residual control will be achieved on non-absorbent surfaces (timber, fibre cement, ceramic, aluminium). Residual control on absorbent surfaces (bricks and concrete) will be shorter.</p>
--	---

Precautions:	WILL KILL bees.
--------------	-----------------

Protections:	Before treatment remove animals and pets from the areas to be treated. Cover or remove any open food containers. Cover or remove fishponds, aquariums etc. before spraying. DO NOT apply within 2 metres of fishpond or water containing fish or aquatic species.
--------------	---

Storage and Disposal:	Keep out of the reach of children. Store in the closed, original container in a cool, dry place. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.
-----------------------	---

Safety Directions:	Will irritate the eyes. Avoid contact with eyes. Wash hands after use.
--------------------	--

First Aid Instructions:	If poisoning occurs, contact a doctor or Poisons Information Centre on 13 11 26. If swallowed do NOT induce vomiting.
-------------------------	---

First Aid Warnings:	
---------------------	--
